Make it a better place

GIL should be provocative and take struggle for social change. GIL will challenge existing laws and regulations to achieve equality and full participation for all people with disabilities.

2012, GIL launched the doll for you with a need to be excessively kind to people with disabilities.

CP-dockan

[Retard Doll]

**GIL**

Secreta AB is not for real. It is a satirical illustration of reality in order to attract attention and create debate. Because the Secreta attitude is for sure real! Regardless of whether it is sex, or any other human right, people with disabilities and need for care daily see their lives reduced to a mechanical, institutional process. Why is it like that?

Said by retards

1. Start with yourself

How do I act when I see or meet a person with disabilities? Am I a nice guy or do I make a difference between people and people?

2. Stand up for others

Stand up against inaccessibility and insidious treatment as well as reduction. Back others.

3. Take the talk!

Dare to talk about function issues. Take up the topic at school, at work or at home.
