Summary of the *questionnaire*

Categories

- ✓ A) People after SCI
- ✓ B) Carers (2)
- ✓ C) Health care professionals and researchers (3)

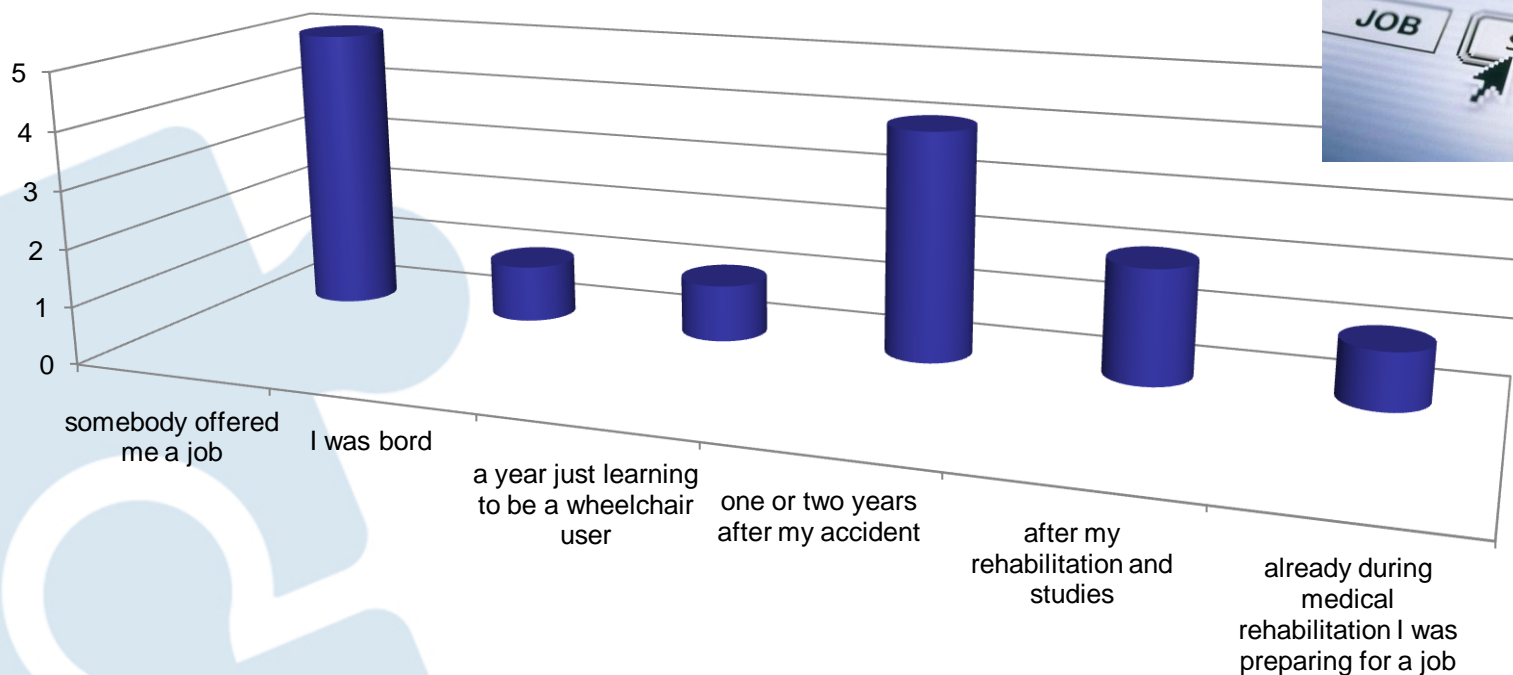

Contributions came from 16 countries and 29 participants

A) When? I was ready to get a job? Where did I start?

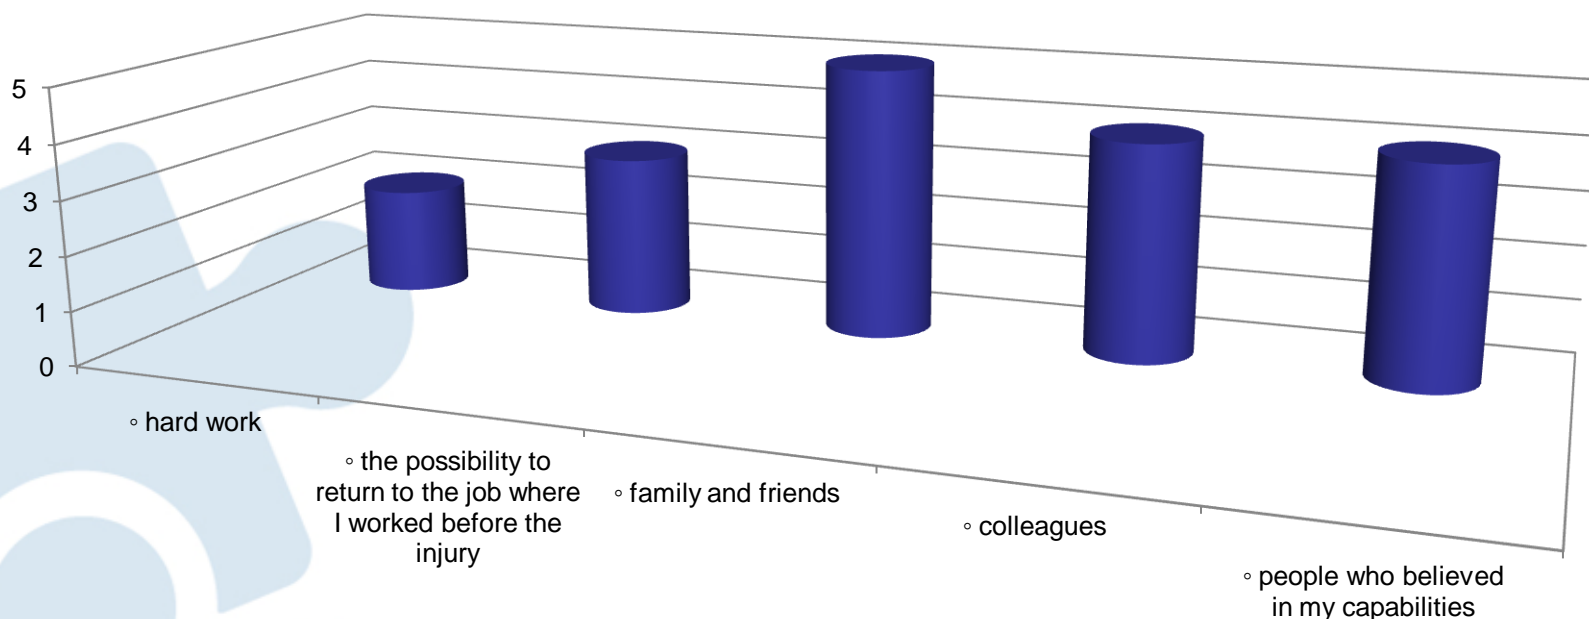

A) What was the most difficult thing I overcame?

- ✓ overcome the built and social barriers (7)
- ✓ psychological barrier - I didn't believe in myself (3)
- ✓ accept the fact that I am on a wheelchair (3)
- ✓ finding new identity (2)

A) Getting a new job. What/who helped me the most?

B) What are the benefits of having/not having a job for him/her as you see it?

- ✓ independence
- ✓ be active and fulfil himself
- ✓ meeting people

C) If a person after SCI were your colleague what expectations/concerns would you have?

- ✓ expectations are the same as for the "healthy" colleagues

C) If you have such a colleague already, what are the benefits/shortcomings of your working relationship?

- ✓ the image for the life and the hope, feeling self-confident, and finding the force to fight different challenges independently how severe they are

What helps to get the job

- ✓ to have a job offer
- ✓ overcome the built and social barriers
- ✓ have a family and good friends

Thank you
